

The office building is a refurbish, redundant church. The receptionist was very pleasant and helpful taking us through procedure but we had to leave a £1 deposit on the swipe card provided. We had some success confirming Sue's connections and after 2 hours we had done all we could at that time. So, into the reception for refreshment and here we met a lady researcher who related to us a wonderful story.

Her Aunt Polly had been married 4 times and the third husband was Mr Beecham who discovered Beecham's Little Liver Pills, which was the foundation of Beecham's Powders. This lady had her Aunt Polly's wedding ring on and she asked us to feel the weight of it. It was valuable. Her cousin, the lady's not Aunt Polly's, had a commissioned tea service for the wedding. These two only coming together by a fluke when meeting up in the ORO when one of the staff realised they were researching the same family. We will be returning.
